## A selection of 50 Great Greek Wines

What does the next day for Greek wine hold?

The 50 Great Greek Wines Project is an innovative wine competition that wishes to strengthen the message for Greek wine worldwide. An idea that will take the conversation a few steps further. A great talk about excellent wines and 50 great stories.

## Wine makes the heart grow fonder

*That is exactly what has happened to us for the last few years during our unique journey of wine discovery: a fond heart, a heart fond of wine. Besides, it is noted that "Where there is no wine, there is no love" according to Euripides and we could not agree more on that.*

*Greece has always had a long storied winemaking history but it is about time world class wines and the new generation of Greek winemakers, using their skill and wine making artistry, were the ones to help bring these wines to an international audience of wine lovers. On the other hand, we will be the ones helping you make acquaintance with the Greek vineyards and the Greek wines under the bright sunshine or under a summer sky full of stars.*

*A wine list carefully prepared, consisting of 104 selected labels, 59 wineries and 47 different grapes varieties - 37 of which are deriving from Greece - is about to lift your senses!*

### ***Are you a true wine lover?***

*Then, let us be your sextant and introduce you to our new service **Exantas2Go**. Do not miss the chance to taste at least one out of our 104 labels or take it with you, either back home or back to your hotel room, at a special price!*

*Choose your favorite wine and drink Greece back with you! We invite you to your unique journey of wine discovery: from the vineyard to the glass.*

*Your journey has just begun!* **Welcome on board!**

What if materials had soul?  
What if a stone is chosen from all the stones  
lying on a beach?

What if a funky motor part is picked up from  
a pile of junk? What if a nice piece of wood  
is separated from all the firewood?

How would they feel when their fate is  
changed?

From a bit of nothing  
to a bit of uniqueness!

Give new life to things that just stay there.
